The journey begins with the Root Chakra on November 3, 2007 10am—5pm
Classes will be held each month through June, 2008.

As we move into the New Field of Living Love, our entire energetic body is being rewired. The New Matrix is like a new operating system and the chakra system is our own personal software that translates the energy and information into consciousness and functional creation. Our individual chakras adapted while growing up in Duality, more focused on survival or getting needs met than on thriving as our individual soul evolved into expression and creation. I have created a series of 8 classes, each focused specifically on one chakra. We begin with the Root Chakra which is the most crucial for connecting within and synchronizing with the Living Field.

Classes that are missed can be made up via DVD video created from a previous class (with updated audio processes), and people living at a distance can participate with these video and audio recordings.

Several participants from previous classes have shared their experience of the course. Here is a sampling:

"If you think that you know the chakras inside and out, think again. Michele's chakra class series brings new insight, depth, and integration to understanding the importance of a vital, healthy and high functioning chakra system. Each class is designed with visual, auditory, and sensory components that appeal to all learning styles. Whether for personal development or to add to your repertoire of counseling and healing skills, you will not be disappointed. I felt blessed to be in the presence of a true teacher's teacher, who shares with incredible clarity, understanding and expertise." - Carol N.

"Organs of Consciousness" was a deep, delightful, multi-sensory adventure. Michele has artfully woven together 20+ years of experience with her finely-tuned consciousness and deep insight about the seen and unseen worlds to create eight wonderful life-changing classes focused on the chakra system. Michele generously shares her wisdom through her heart and gently coaches each of her students to release thoughts, beliefs, structures, and behaviors that no longer serve. Each class was brimming with new awareness, intriguing experiences, and sensory delights. If you are ready to dive into the new Living Matrix of Light and fully live as your radiant Authentic Self, I highly recommend this series. -Loris S.G.

"Michele's chakra classes are just what I needed to learn about these energies. I feel as if Michele helped me get right inside each chakra and really have fun learning the function and qualities of each one. She provided a multi-dimensional experience, with interesting lectures, music, photos, paintings and experiential materials. I know I will use the information for myself and for my massage and Healing Touch clients forever." - Kate P., CMT, CHTP

The entire course is \$800 if paid on or before the first class or \$110 if paid at each class. Once you register for the class, you will be provided with a CD that gives both an overview perspective and background for the series.
